

Hampstead Health Practice

REMOTE HAIR FOOD INTOLERANCE SCREENING

You are required to send a minimum of 10 strands of hair approximately 1” long which can be taken from your head. Dyed hair does not affect your results. The hair is not to be pulled from the root. The hair sample is to be cut. Be careful when using scissors.

Q What am I being screened for?

A You are being screened for the following foods and fluids

Q How does the screening work?

A Once we have your hair sample the Asyra software which contains digitally-encoded information will be placed in contact with your hair sample to create your list of food or fluid intolerances.

Q When will I get the results sent to me?

A The results will be emailed to you within 14 working days of us receiving your Hair Sample.

Q What shall I do if my results say to avoid a whole food group?

A Contact Hampstead Health Practice and we shall give you personal advice.
